**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We and my neighbors have been blessed with outstanding internet speed at a very reasonable cost and fantastic customer service. Sonic has been all of these and more!! This is what open competition can provide to YOUR addressable end users and who you are ultimately most impacted and whom you have the greatest degree of "fiduciary" responsibility for. Please do NOT change any current FCC mandates that would REMOVE Sonic or any other provider of similar services. The service metric alone vs Comcast & AT&T is like night and day. These two OLD behemoths needs to adjust to the current environment and become more nimble. It is bad management & lack of vision that has put them in their current financial and business condition. Speed of broadband is not only critical it is becoming of a "national security" issue. Who rules 5G going forward is a major issues.
